*Accredited with the title of Master of Science
(equivalent to the official Master's degree of the Spanish university system)

Our focus

- Animal Production and Welfare
- Environment and Natural Resources
- Fisheries and Aquaculture
- Marketing and Sustainable Agrifood Systems
- Plant Production, Health and Breeding

One-week advanced courses for professionals
are also organized every year on cutting-edge
scientific and technical topics.

Cooperative research programmes and knowledge transfer

40
international research
projects

60 agreements
with universities and
organizations

3 FAO-CIHEAM
joint research networks

CIHEAM Zaragoza promotes innovation in the agrifood sector through research projects and research networks that foster collaboration between CIHEAM member countries.

The Institute currently coordinates or participates in:

- SmartCulTour (H2020: 2020-2023)
- NewTechAqua (H2020: 2020-2023)
- CAMA (PRIMA: 2020-2023)
- IPMWORKS (H2020: 2020-2024)
- Pastinnova (PRIMA: 2022-2025)
- Re-Livestock (HE: 2022-2027)
- Grass Ceiling (HE: 2023-2025)
- Premiere (HE: 2023-2027)
- Safe Habitus (HE: 2023-2026)

CIHEAM Zaragoza is also currently participating in three different cooperative research networks with the FAO, focusing on the sheep and goat sector, nuts, and pastures and forage crops.

Our commitment

CIHEAM Zaragoza
Strategic Plan 2023-2026

CIHEAM Agenda 2025

PROTECT
THE PLANET

FOOD SECURITY
AND NUTRITION

INCLUSIVE
DEVELOPMENT

CRISIS AND
RESILIENCE

Sustainable Development Goals
2030 Agenda

CIHEAM is an intergovernmental organization working for sustainable agriculture and fisheries in the Mediterranean region. It is composed of 13 member countries (Albania, Algeria, Egypt, France, Greece, Italy, Lebanon, Malta, Morocco, Portugal, Spain, Tunisia and Turkey).

CIHEAM Zaragoza is the headquarters of the organization in Spain. It was created in 1969 and is located on the Aula Dei Campus, one of the most prestigious in agriculture and food research in the country. From this top-level scientific and technical hub, the Institute offers training of international excellence and promotes research and cooperation to address the main challenges facing agriculture, livestock, fisheries, the environment and natural resources in the Mediterranean.

CIHEAM Zaragoza focuses its activities around five areas of expertise: Animal Production and Welfare; Environment and Natural Resources; Fisheries and Aquaculture; Marketing and Sustainable Agrifood Systems; and Plant Production, Health and Breeding. They are all aligned with the Sustainable Development Goals (SDG) and the 2030 Agenda.
