Sustainable Development Goals
2030 Agenda

CIHEAM is an intergovernmental organization working towards multilateral cooperation for sustainable agriculture and fisheries in the Mediterranean region. It is composed of 13 member countries (Albania, Algeria, Egypt, France, Greece, Italy, Lebanon, Malta, Morocco, Portugal, Spain, Tunisia and Türkiye).

CIHEAM Zaragoza is the headquarters of the organization in Spain. It was created in 1969 and is located on the Aula Dei Campus, one of the most prestigious agriculture and food research and technology complexes in the country. From this top-level scientific and technical hub, the Institute offers international training and promotes research and cooperation to address the main challenges facing agriculture, livestock, fisheries, forestry, the environment, and natural resources in the Mediterranean.

CIHEAM Zaragoza grows by networking and collaborates with experts and organizations around the world to build capacities and transfer knowledge. The Institute is currently engaged in an ambitious project of digitalization and sustainable growth.
